

MUSTANG SURVIVAL / RESCUE SWIMMER VEST

MRV170 / RESCUE SWIMMER VEST

Hailed as the first rescue swimmer vest to turn a compliance-driven device into a tactical piece of equipment that actually helps get the job done. Designed for the performance-driven public safety water professional who can't afford to be impeded by extra gear, this vest blends two of Mustang Survival's core competencies - inflatable flotation and foam flotation - to offer a slim profile flotation solution.

1. Easy to swim and perform in water when bladder is inflated
2. CO₂ cylinder storage pocket
3. Hybrid flotation - foam and inflatable flotation
4. 9lbs of inherent foam buoyancy, 26lbs total buoyancy when manually inflated with CO₂
5. Left side buckle closure with adjustability on sides and at shoulders
6. Constructed with a combination of 500D nylon and 1.5 mm neoprene
7. Oral inflation/deflation valve easily accessible for adjusting buoyancy, and hidden away when not in use.
8. MOLLE system on the front and back for personal configuration of equipment
9. Compatible with standard MOLLE attachments
10. MOLLE webbing designed for knife storage

COLORS	BLACK/FLUORESCENT YELLOW-GREEN ■■
SIZING	ADULT UNIVERSAL (34" - 52")
ACCESSORIES	ADDITIONAL LARGE MOLLE POCKET (MA0098) AND SMALL MOLLE POCKET (MA0099) AVAILABLE
RE-ARM KIT	MI5700
