

MUSTANG SURVIVAL / INFLATABLE WORK VEST

HIT™ INFLATABLE WORK VEST (MD3188)

Available exclusively from Mustang Survival, the HIT™ Inflatable Work Vest is the only one of its kind. Designed and built for serious users, Mustang Survival pioneered the standards for inflatable work vests.

With a comfortable and low-profile fit, the MD3188 HIT™ Inflatable Work Vest offers enhanced mobility and reduced heat stress, allowing crews and professionals to work more efficiently throughout the day. Its 35 lb buoyancy rating also means they'll have the added safety of extra flotation and self-righting when they need it.

Made for the most severe marine environments, the HIT™ Inflatable Work Vest contains Hydrostatic Inflator Technology (HIT™) that offers reliable inflation in a low maintenance design that will automatically inflate when submerged in 4 or more inches of water, and not inadvertently due to rain, spray or humidity. This technology is exclusive to Mustang Survival in North America and maintenance-free for 5 years from date of manufacture or until inflated. Ideal for constant wear situations, hot, humid conditions and high-mobility requirements.

1. USCG approved as a Work Vest (only when worn) under 46 CFR 160.053 for use on all inspected and un-inspected commercial vessels or any length
2. USCG approved for use in lieu of a Type II PFD under 46 CFR 160.064 on un-inspected commercial vessels less than 40 feet in length not carrying passengers for hire
3. Self-righting Type II performance
4. Provide 35 lbs of buoyancy when inflated - twice the flotation of regular foam work vests
5. Bright fluorescent yellow-green inflation cell
6. 1F auto hydrostatic inflator technology protects against inadvertent inflation
7. 5-year maintenance-free inflator with status indicator window
8. Durable PU-coated nylon shell offers improved puncture and abrasion resistance
9. Custom-molded inflator cover reduces wear and protects inflator cap
10. SecureZip™ closure features recessed zipper to protect teeth from oil, grease and other contaminants
11. CO2 cylinder is contained inside cell to protect against corrosion
12. Retro-reflective SOLAS tape on front & back outer shell
14. Strobe light holder, safety whistle and additional SOLAS reflective tape visible when inflated
15. Offers greater mobility than foam work vest
16. Reduces heat stress
17. Includes back-up oral inflation tube
18. Easy-to-clean fabrics
19. Strength-tested at 50 mph
