

MUSTANG SURVIVAL SENTINEL™ SERIES

ULTRA-LIGHTWEIGHT SPECIAL OPERATIONS DRY SUIT (MSD678)

Our Sentinel™ Series Ultra-Lightweight Special Operations Dry Suit is the lightest and most breathable surface ops dry suit on the market. The MSD678 is a waterproof & breathable constant wear dry suit ideal for users engaged in maritime special operations which require splash &/or immersed hypothermia protection that won't hinder the primary mission objectives. The MSD678 was specifically designed with feedback from Naval Special Warfare, select US federal tactical units, state & local police SWAT teams. The result is a super-light, low thermal burden and better fitting dry suit with features found on industry leading combat and tactical uniforms.

The MSD678 weighs well under 4lbs and has an estimated lifecycle of 1 year/ 10 days/ 100 hours of use.

Exclusive to Mustang Survival, the Sentinel Series dry suit features:

- Mobility Based Sizing™ offers users a semi-custom size fit that reduces bulk and increases mobility without the custom price tag
- Rapid Repair Technology™ enables users to field replace neck and wrist seals and repair small leaks in an hour or less

1. Neck seal protective collar for improved abrasion protection
2. Military grade GORE-TEX® waterproof and breathable dry suit fabric
3. Two expanding arm pockets with an internal lanyard attachment point
4. 330 Denier CORDURA® Nylon reinforced flexible molded foam elbow pads
5. 330 Denier CORDURA® Nylon reinforced wrist overcuffs with Velcro® closures for adjustability
6. Two expanding thigh pockets with an internal lanyard adjustment point
7. 330 Denier CORDURA® Nylon reinforced flexible molded foam knee pads with adjustment straps to keep in place
8. Two expanding calf cargo pockets with Velcro® closures and an internal lanyard attachment point
9. 330 Denier CORDURA® Nylon reinforced overcuffs with Velcro® closures for adjustability
10. Integrated universal size GORE-TEX® dry socks
11. Rapid Repair CCS™ adjustable neck seal allows the users to easily vent the suit reducing the thermal burden, but quickly close the neck seal with one hand to make it watertight
12. Low profile zipper entry and relief openings designed for increased comfort, easier operation and less maintenance than traditional dry suit zippers
13. Two-point attachment removable suspender system for improved fit, mobility, and comfort over traditional suspender systems
14. Internal low profile elastic for fitted waist
15. 330 Denier CORDURA® Nylon reinforced seat
