

MUSTANG SURVIVAL ICE COMMANDER

ICE COMMANDER RESCUE SUIT (IC9002 02)

For more than 10 years, the Ice Commander® has set the standard in Personal Protective Equipment (PPE) for cold water rescue. The IC9002 02 accommodates a wider range of body types compared to other existing ice rescue suits while offering unmatched adjustment to suit the needs of individual rescuers.

The IC9002 02 is a modular suit made of a durable urethane-coated nylon shell and a removable buoyancy liner that also provides thermal protection. Along with the integrated boots and gloves, the extended torso and covered diagonal entry zipper allow for quick donning while creating additional flexibility for the rescuer. Multi-point adjustment straps on the wrist, torso and legs and an adjustment zipper on the back of the hood create a near custom fit. A neoprene face guard offers additional protection from icy water and can be folded out of the way when not in use. The face guard can also be pulled to purge off excess air trapped inside the suit. The suits are reinforced in high abrasion areas and are 45% lighter than neoprene suits

1. Water-tight hood designed with back zipper adjustment for secure fit, with SOLAS reflective tape and Velcro® patch for light attachment
2. FastTab™ for easy attachment of accessories like a knife or strobe light
3. Detachable inner buoyancy liner constructed of closed-cell AirSoft™ foam for maximum flotation and thermal insulation. Liner can be unsnapped and removed for cleaning and repairs
4. Integrated self-adjusting safety harness
5. Seat and elbows are reinforced with shell fabric
6. Adjustment straps on torso, legs and wrist for improved fit and increased range of motion
7. Neoprene face guard
8. Covered and watertight heavy duty diagonal entry zipper improves rescuer mobility, comfort and prevents water intrusion at the face opening
9. SOLAS reflective tape and Velcro® patch for light attachment
10. Pockets easily secured with Velcro®
11. Ergonomic ice awl pockets - sleeve pockets designed to attach and stow ice awls
12. Welded nylon outer shell provides waterproofing and durability, and makes cleaning and repairs easier
13. Reinforced knees - reinforced and padded with 2.5 mm neoprene

SIZE

Adult Univeral 110-330lbs, 4'11"-6'6"

COLORS

 Gold

ACCESSORIES

Ice Commander Repair Kit: MA2290
Zipper Lubricant: MA2292
Replacement Liner: MA9002

NOTE The Ice Commander is intended for still/static cold water rescues only by trained professionals with the required and approved operating standards and requirements of their state or country.
